

EMBODY THE ELEMENTS OF SUCCESS!

A Quick Guide

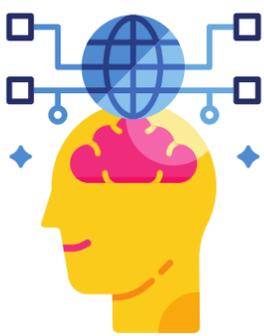

PASSION

Everyone should have work that involves them in things they have a passion for! When you have work or a career that aligns with your values and matches your interests, you are more likely to be successful in that work.

INNOVATION & PROBLEM SOLVING

Be able to contribute interesting ideas, providing your team/organization with creative ways to do the work. Introduce new & innovative ways to approach processes. Be solutions oriented, meaning, when problems present themselves, have suggestions for how to solve them. You want your team and boss to identify YOU as a thought leader in your field.

DIGITAL LITERACY

Stay current on new and emerging technologies. Have an awareness of and an ability to engage & communicate, assess and manage your work on a variety of software, social media & digital platforms.

FINANCIAL LITERACY & WELLNESS

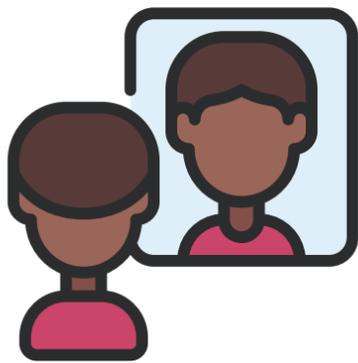

Managing personal finances well is the first step to being successful in business or in your career endeavors. In order to achieve financial wellness, you must first understand finances (i.e. your \$\$; where is it, how to manage & grow it, etc.) People cannot show up in their career and be successful if they are concerned about their financial stability.

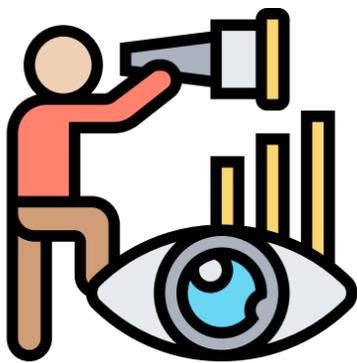

EMBODY THE ELEMENTS OF SUCCESS!

A Quick Guide

SELF AWARENESS

This is more than being introspective. It is the ability to recognize your thoughts, feelings, & behaviors and manage them in the context of the environment. It is about always knowing where you stand. It is vital to success to have a keen awareness of your skills & abilities, how you relate to others as well as how others work with and relate to you.

VISION-WORK

This begins with having a VISION for your life & career. Once you have a clear vision, your actions should follow. This means that you can do things regularly (we recommend doing something small daily) towards fulfilling your vision. This is about creating daily habits that bring your vision to reality--THAT is vision-work.

PHYSICAL & MENTAL WELLNESS

You cannot pour from an empty cup
(author unknown)

It is essential that you take care of your mind, soul & body. When your mind, body & soul are cared for, you can be much more effective & impactful. REMEMBER, this is about being WELL...not perfect or having optimal health. This will look & feel differently for everyone.

TOLERANCE FOR AMBIGUITY

This simply means when presented with a vague, complex issue or problem you can not only work through it, but that you can do so with patience, & persistence. This means you are not daunted by obscure tasks.

UNAPOLOGETIC AMBITION

Don't be bashful, be resolute about what you want. Name it, Claim it and Pursue it with tenacity. It is possible to have humility while also in relentless pursuit of your personal & professional goals.
